

PROPHETIC WORDS FOR 2015

Dr. RUSS MOYER

2015 will be a year of stepping in...a season of stepping into place and into position...posturing and positioning us for the great harvest that's at hand. Last year was a year of the "open door" The Lord opened the door with purpose...that we would step into the open door...step into that season of promise and place of rest.

In early to mid Sept there was a huge shift in the spirit that prophetically signified us stepping into a season of great change. When I came to Canada many years ago...the message on my heart was the "winds of change are blowing" and I say to you again the winds of change are blowing...and The Lord is in the wind.

This year is the year of 5775 and the season we are stepping into, is a season of great favour..grace a season of rest...and a season of promises soon to be fulfilled...many found themselves in a place of great hopelessness and despair but the season we are stepping into is a season of "HOPE RENEWED" We are at a turning point...a tipping point. Things have turned and things are changed . The wind is at our back...a "FORCE OF FAVOUR"...and this wind is now a prevailing wind...ready yourself not justfor a blessing but for a season of unfolding blessings.

Fear not and fret not for I am with you...saith The Lord....and I will finish the great work I have begun in you . Many delays in the promise have brought frustration but this fresh wind shall bring forth " HOPE RENEWED". That hope shall carry us through some present and early year battles until momentum builds a "FORCE OF FAVOUR" ...

This wind shall bring to bear the power of God in signs...wonders and miracles and release a fresh anointing...and a fresh hunger for souls...worldwide evangelism with an emphasis on the Market Place.

AROUND THE WORLD

Around the world a great shaking continues...but this time there shall be a rising up and positive change shall be birthed from the depths of desperation. A new wave of leader has come over the hill...and come on the scene. A wave of unity shall sweep across the Body of Christ releasing a commanded blessing that brings forth the wisdom discernment and courage to facilitate positive change. We are in the process of a worldwide realignment and re-definement...A reaching back touching our roots...revisiting our core values while reaching forward to fulfillour end time mandate and destiny. Unrest... turmoil... chaos... anarchy...signs of the times...They shall NOT prevail...In the early part of the year three global powers...nations and corporations... will seem to topple...but from the ashes shall come birthingand new life and new alliances!

CANADA

Canada shall continue to rise...shall continue to move forward...feeling comfortable now and beginning to mature in its role as a world leader. Leading the way...politically...financially and spiritually. Small groups will try to bring division and confusion...but too little too late...Canada shall continue to lead the field...and lead the way. She will be known as a peacekeeper yet not afraid to take a stand against evil and confront aggression.

UNITED STATES

Lots going on...lots to do...things happening on many fronts...The government.. political and financial systems...even the faith based community have been operating in and under duress. Many counted America out...down for the count....but it's not over...in fact they're will be some positive shifts and changes in the early part of the year...a real mixed bag and a lot of activity. People thought for sure nothing would happen and there would be a stale mate...but get ready for a flurry of activity in different areas around the world. Picking up the pieces...WAKE UP everybody the winds of change are blowing...and The Lord is IN the wind

Political unrest and division shall birth strange bedfellows and a financial shift shall also occur. In spurts prosperity shall come at first...not the long lasting type that we all hope for...but a strong shift...this too...shall bring "HOPE RENEWED" and a chance to catch our breath as change comes swiftly.

I looked down the political aisle and I saw people walking back and forth and crossing over...Don't be surprised as people on different sides of political issues and different political parties begin to bring down the old political system barriers ...for the cause...and this too shall bring "HOPE RENEWED"

THE CHURCH

The church is in the greatest season of change in its history. We are in the midst of the great restoration...we have re-laid the foundation and are stepping into the greatest season of growth and development in its history. There has come and will come yet strong persecution even martyrdom. All of the blessings and promises come with persecution...they're on the way. Religious persecution around the world against Christians will heighten and cause a great shift and a great harvest. Many when they see the depth of despair and persecution shall turn again to God and their faith and commitment shall be strengthened rather than weakened. A wave of evangelism and a burden for souls shall facilitate the greatest harvest in Church history...accompanied by signs wonders miracles and divine healing...a wave of healing...and another wave of healing. Testimony after testimony of healing of disease and breakthrough with major diseases.

Major diversity and different trends of thought shall drive wedges of division attacking the church for the inside out. Division in Major subjects of doctrine even the foundations of the faith and basic moral issues. Scandal shall once again rock the church as hidden things and hidden sins shall once again be revealed.

The dominant force of a few shall be broken for the freedom of many. The Liberty bell shall ring aloud this year...as there continues to be an exodus from traditional " status quo " church into the freedom and liberty of the Apostolic and Prophetic movement as the church goes from a move to a movement.

Denominational barriers and idols shall continue to crumble...but like the iron curtain true freedom comes in the process of the journey.

EAGLE WORLDWIDE in 2015

Raising up the Elisha Generation ...mentoring the next generation ...train to reign ...pressing into legacy ...the next generationstepping up...stepping in ...stepping out ...missions a fresh heart cry ...foreign and domesticbabies more babies and grand babies the plan of multiplication in action ...fresh anointing for outreach / evangelism/healing...reflecting His face in the Marketplace !!!
Developing coalitions and cultivating Covenant relationships in North America and around the world....he is releasing to us Strategies , Concepts , and Ideas for Divine Designsand releasing us into an Apostolic and Prophetic building season! A year of restoration , healing and promises fulfilled in family and church and businesspartnerships and relationships forgedbuilding into the modelFavour Favour and more Favour !!!

PASTOR MAVE MOYER

In 2015...we will see the greater things not yet seen...

We will see more manifestations...experience more visitations and operate in more demonstrations of the Holy Spirit...As we press into the fullness of Gods plan we will see Gods love and supernatural power poured out like never before in the land...His glory will manifest tangibly in great measure and bring forth many demonstrations of His healing and restorative power...and we will see supernatural provision for the vision and breakthrough in all the areas of our lives where we need more of God.

I see into the realm of the darkness and see that principalities and powers of the darkness are brought down...they shall no longer stand...Greater is HE that is in ME will take on a whole new definition this year as we see the strength of the name of Jesus overpower the enemy's power... 2015 is a year of "rising up" and taking our place...running and winning our appointed race...NOW is the time...NOW is the day...

For my people to rise up and have their say...no more backing down...time to stare the enemy down...You have power and authority so rise up and stand for ME...

For my children this will be a year of walking in true liberty and grace...with a new understanding of honour...a year of healing...and favour ...2 Kings 20:6

This will be a year of judgement in America as they have turned their backs on me and allowed mammon to be their god. ...Genesis 15:12-16...

For my children It will be the year of the wealth transfer and the year of administration. This is the year when stumbling blocks will move and righteousness will be established...

There will be continued flooding, land erosion...and sink holes happening in many places...I see instability within the marketplace...in particular with investors. We will see exposure in "high places"

We can expect earthquakes...war and famine in the natural...but those who trust in the Lord shall rise up in the midst of it all...spiritually and naturally. From now until the end of May we will experience many shakings worldwide...seeing problems underseas...volcanic eruptions...and tidal waves...

God is calling on US to respond to His call and to prepare for the great harvest that is about to come forth, as many will bow their knee to God in 2015.

We will experience God's divine protection like never before as we see the Esther's Joseph's and Daniels rise...

Breakthroughs in the area of medicine...especially cancer research and there will be solutions from the fruits and plants....As disease is on the rise God shall cover those that call upon His name. We will see unusual Plagues surfacing including sores, boils and respiratory problems...this summer will bring severe heat-waves and hailstorms...There will be problems with water and the oceans, as there will be great pollution. Pray for the Middle East, North Africa...Europe. and Iraq.

There shall be vindication for those that have been persecuted....and justice for those who were murdered as their blood cries out. Many have turned a blind eye to the persecution of My people... but...the Lord says, vengeance is Mine and I will repay. We will see more groups rising up out of ISIS. The Lord sees and hears and knows...Men think they rule...but God overrules...Gods Truth trumps the facts.

Then I heard the voice of God coming through an open window saying "The wind of my Spirit is blowing once again to refresh my children...to fill their hearts with a new zeal for my lost ones...My Harvesters are rising up...the lost are coming in...and

Evangelism is going to a whole new level.

The open window changes the atmosphere of the place we are in...in the natural realm and in the spirit realm. Time for us to take responsibility for opening the windows for ourselves and for others, and especially in the house of The Lord to bring in the new atmosphere. We are called to steward the atmosphere of heaven, and to engage with the Holy Spirit inviting the atmosphere of heaven into our personal lives...homes and churches.

In the heavenly atmosphere, the Glory of God will find rest. His Spirit is hovering, waiting for the right atmosphere.

The open window will allow us to see beyond the limits of the physical realm...and bring revelations of the limitations of time and space, and just as Jesus was able to do miracles which contradicted the apparent absolutes of time and space...so too will many of us be moved by the Holy Spirit in supernatural ways which are beyond the limits of time and space...Get ready for some sun stopping...rain stopping experiences...as we see Him split the Red Sea of adversity for you and me...2015...the year of things not yet seen...
