

## Word for 2024 – Derek Adams

2023, for some, was an incredible year. For some, it was an O.K./alright year. Then, for others, it was a very challenging & difficult year. Whichever category you fit in, be encouraged, for that year is now gone!

2024, believe for the "More" of God!

In the midst of great persecutions, there's going to be great glory & harvest of souls!

Many open doors of opportunities are going to swing wide open for you, but discern the open doors, as not every open door is from the Lord.

This is a time of war & warfare. It's time for the watchman to get back on their walls and begin to cry out to the Lord.

Decree, Declare, Prophecy, Pray, Intercede, Travail. This is a time for the worshippers & intercessors to receive their marching orders to march forth and begin to take back land in the spirit. It must first begin & start in the spirit, before seeing it happen with the natural eyes.

This is a year of exposure and the veil being pulled off many things that have been hidden. The Lord has showed mercy, but many have refused to repent. So, things will come to the light that has been in the darkness.

Outreach, evangelism & soul winning will have a new impact on many people's hearts.

The earth is going to increase its intensity of natural disasters, because of the sin and shedding of innocent blood.

Even though I'm very excited in my spirit about this year, at the same time, I feel something in my spirit that's not good. There's an alarm going off in my spirit. I'm

not sure what it is. I sense that's it's just over the horizon (maybe not too far into this year). The last time I felt something like this it was at the end of 2019 & for the year of 2020. The enemy is planning something very evil. We, as the Body of Christ, need to up our prayer lives in 2024. The enemy is not playing. Pray and receive strategies. The Lord wants to thwart the enemies' plans, but it takes intercession as the Lord partners with man. Somethings are His will and other things can be stopped & changed through peoples' prayers.

Stand guard against deception! It will continue to increase. Grab a hold of your anchor & sword (The Lord & His Word). Stay close to both, as They are inseparable but don't make it that way. Spend time in & with both. Test the spirits. Test EVERY spirit if it's from God or not.

This year will continue getting worse in the natural, but the Lord in the midst of all the craziness, is going to move. Muslims! Many, Many Muslims are going to repent and turn to the Lord. There's a revival that's brewing among the Muslims. Favor, Favor, Favor!!! Know that My people have My Favor and My Favor will manifest upon your lives in 2024!

Let's press in for a mighty move of God in our families, cities, and countries (nations) in this year of 2024!!
